

The Director, manager and staff of **TUI Blue Oceanis Beach & Spa Resort** recognize that our operations have an effect on the local, regional and countrywide environment. As a consequence of this, the management of our hotel is committed to continuous improvements in environmental performance and the prevention of setting the minimum standards of environmental performance.

TUI Blue Oceanis Beach & Spa Resort is committed to a policy of responsible environmental management, leading to a sustainable use of resources and optimal management of waste.

Therefore, **TUI Blue Oceanis Beach & Spa Resort** undertake that it will:

- ✓ Ensure that all employees at all levels are aware of the potential environmental effects of the activities and the benefits of improved environmental performance, and will provide specific environmental training to this effect.
- ✓ Communicate this environmental policy and promote environmental awareness amongst all employees and customers.
- ✓ Ensure that all employees are instructed on the potential environmental effects of their activities and the benefits of improved environmental performance.
- ✓ Display this policy statement in a prominent position within the Hotel.
- ✓ Make this policy statement available to all interested parties on request
- ✓ Comply with all applicable environmental legislation as a minimum standard
- ✓ Adopt a policy of 'green procurement', taking environmental factors into account in all purchasing and supplier contracts
- ✓ Provide organic produce where available and never knowingly use genetically modified ingredients or products
- ✓ Take all measures, that are reasonably practicable to:
 - Reduce waste stream & conserve natural resources, particularly through energy and water consumptions
 - Value the natural and cultural heritage of our properties
 - Reuse waste components, where it is safe and practicable to do so
 - Recover / recycle those fractions of the waste stream, where an outlet is available
 - Dispose of final wastes by the most environmentally suitable means
 - Adopt a responsible energy management through reduced consumption and encouragement of energy efficiency through reduced consumption and
 - Encourage the use of public transport and provide facilities for the disabled pedestrians and cyclists
 - Aim of continuous improvement
- ✓ According to our company policy all electronic devices the once are being used at present or the once that will be purchased and used in the future should be low energy consumption.
- ✓ We aim to minimize the use of chemicals non-caused damage to health of the environment and to seek alternatives methods where possible.
- ✓ The hotel will continue to minimize waste when possible, to buy in bulk and to continue to use new Freon gases only.
- ✓ We offer our customers and employees the possibility of recycling batteries, paper and glass by using the recycling bins found at the hotel's interior and exterior common areas.
- ✓ We actively monitor our water consumption and ensure that we keep our consumption at a minimum. We also ensure that we do not waste water by carefully controlling water flow throughout the accommodation, including our gardens (we have established an automatic dropping system that works at

night). We communicate and promote water saving practices to all employees and customers.

This policy statement will be reviewed annually to ensure that it remains applicable to the activities of the Hotel.
